DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-5, 9 and 11-17 are allowed.
2. The following is an examiner's statement of reasons for allowance: The Applicant's system is directed towards a printer and offline post processing system that is able to receive post processing commands from a memory component connected to a spool roller that is attached to the printer. Once the user transfers the spool roller with paper and the memory device to the offline post processing apparatus, the finishing device reads the instructions on the roller's attached memory and performs the finishing operations. The claims specify that the paper is being rolled around a spooler while information is being recorded on an attached device on the spooler. The art searched and applied to the claims does not disclose the feature of having a memory device attached to a spooler while paper is being wound around the spooler roller itself. Since the applied art does not disclose this amended claim feature and was not found in a search for prior art, the Examiner believes the claims in the case are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
